HIT Graduate Study Regulations (2025 edition)

Synthetic demonstration document. The institute and its rules are fictional.

Section 1. Admission and credits

1.1 A master's programme at the Halvorsen Institute of Technology comprises 120 ECTS credits and normally takes two years of full-time study.

1.2 The master's thesis is worth 30 ECTS credits.

1.3 Applicants must hold a bachelor's degree with at least 180 ECTS credits.

1.4 Applications for the autumn intake must be submitted by 15 March.

Section 2. Thesis supervision

2.1 Every master's thesis has a main supervisor who holds a doctorate and is employed by the institute.

2.2 A thesis carried out in a research laboratory must also have a co-supervisor from that laboratory.

2.3 A student may change supervisor once, with the approval of the dean of the school.

2.4 Students meet their main supervisor at least every two weeks.

Section 3. Assessment

3.1 Each thesis is graded by two examiners on a scale from 1 (lowest) to 5 (highest).

3.2 If the two grades differ by more than one grade, the dean of the school appoints a third examiner.

3.3 The minimum passing grade is 2.

3.4 The thesis must be submitted no later than 31 May for graduation in June.

3.5 A failed thesis may be resubmitted once, within six months of the decision.
